Education

SoftUni
Java Development
2022 – 2024

Professional Tourism School
2011 – 2015

Technical Skills

BACKEND
- Java
- Spring Boot / Spring Data
- Hibernate / JPA
- REST API Design
- JUnit / Mockito

FRONTEND
- Angular
- TypeScript
- RxJS
- Angular Material
- HTML / CSS

DATABASES
- PostgreSQL
- MySQL
- MongoDB
- Flyway Migrations

INFRASTRUCTURE
- Docker / Docker Compose
- AWS S3
- Cloudflare CDN
- Nginx
- Linux / Ubuntu
- Git
- Maven / Gradle

Software Developer

Full-stack Java developer with hands-on experience building and deploying production applications. Professionally working on enterprise compliance software while maintaining Collectra, a personal full-stack project built with Spring Boot and Angular.

Experience

Java Developer — Nov 2024 – Present

DXC Technology – Bulgaria

- Developing and maintaining enterprise software for material compliance, risk management, and supply chain transparency, serving major global manufacturers including Volvo, Airbus, and Bosch.
- Working within a large cross-functional team of ~60 engineers on a mission-critical platform that ensures regulatory compliance across complex international supply chains.
- Contributing to a mature Java codebase, collaborating through code reviews, and following established enterprise development practices.

Full-Stack Developer — Sep 2022 – Present

Collectra – Personal Project | collectra.site

Spring Boot · Angular · PostgreSQL · AWS S3 · Docker · Cloudflare

- Designed and built a full-stack collection management platform from scratch — backend REST API, Angular SPA, PostgreSQL schema, Docker Compose deployment, and Cloudflare CDN configuration.
- Implemented JWT authentication with token rotation, Google Sign-In integration, and GDPR-compliant account management including data export and full account deletion with S3 cleanup.
- Built a dynamic EAV (Entity-Attribute-Value) system for custom fields per category, photo uploads with S3 storage and thumbnail generation, and a collection sharing feature with public snapshot links.
- Managed the full infrastructure: Hetzner VPS, Docker Compose, Nginx reverse proxy, Flyway migrations, automated backups, Cloudflare WAF rules, and rate limiting with Bucket4j.

Certifications

- Spring Advanced – SoftUni
- Spring Data – SoftUni
- MySQL – SoftUni
- Java OOP – SoftUni
- JavaScript – SoftUni
- HTML & CSS – SoftUni
